**Agentis Names Neal Miller as Chief Financial Officer**  
***23 Year Industry Veteran Brings Leadership and Technology***  
***Experience to Innovative Market Leader***

**New York, NY – September 6, 2005** – Agentis Software, a leading provider of intelligent IT solutions, today announced that Neal L. Miller will join the Company as chief financial officer effective September 1, 2005.

"Neal brings more than 23 years of experience in finance and operations to Agentis and a deep understanding of the software industry," commented James Marshall, CEO of Agentis. "As Agentis' CFO, Neal will bring the leadership, financial discipline and planning expertise necessary to enable Agentis to continue to lead the market."

Miller's prior experience includes serving as chief financial officer and executive vice president for several public and private software and technology companies. Most recently, he was a part of the management team that led the successful sale of publicly held Cypress Communications, a managed services provider in the telecommunications arena. Prior to Cypress, Miller held financial and operational executive positions with CES International, Inc., a privately held provider of operations resource and energy delivery management solutions, Syntellect Inc a public company that sold interactive call center software and managed services, and

Tandem Computers, a \$2 Billion publicly held provider of computer systems to banking, telecommunications and healthcare industries. Miller started his career in the software industry with over nine years spent at publicly held American Software, a provider of enterprise and supply management solutions.

"Agentis has established itself as a leader in the Intelligent IT solutions market. The company has enormous potential for growth and I'm honored to be part of the management team," said Mr. Miller. "I look forward to working with Jim and the Agentis team to achieve our next set of corporate goals."

Miller graduated cum laude from Georgia State University with a bachelor's degree in accounting.

### **About Agentis Software**

Agentis Software delivers intelligent IT solutions at a fraction of the cost and time of other methodologies. We use goal-directed application modeling to create operationally-aware applications that automate and orchestrate processes across your enterprise. The model is then automatically deployed as enterprise Java code. These applications allow you to rapidly update, remove or introduce new processes and rules to keep application functionality in sync with your business requirements.

Agentis Software has offices in the US, Paris, Buenos Aires and Melbourne. For more information about Agentis Software products and services please call (917) 368-8129. In Europe, call Agentis at +33 (0) 140 903 028. In Latin America, call Agentis at +54-11-4317-6880. In Australia, call Agentis at 61 3 8341 2600. Please visit us at <http://www.agentissoftware.com>.
